Solutions

MAC's ADVANTAGE

RELIABILITY = NON STICKING

MAC Valves Inc. is a global leader in air valve solutions for the transportation industry. Reliability is an inherent benefit of MAC's product design. MAC valves are optimized to perform reliably in the harsh operating conditions associated with the transportation industry.

DESIGN FEATURES = PERFORMANCE BENEFITS

- | | |
|-------------------------------|---|
| ● Balanced Design | ● <i>Unaffected by fluctuations in air pressure</i> |
| ● Wiping Action | ● <i>Virtually unaffected by typically contaminated air</i> |
| ● Minimal Friction | ● <i>Minimizes resistance to shifting forces</i> |
| ● High Shifting Forces | ● <i>Positive Shifting</i> |

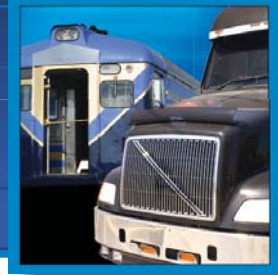

INDUSTRY SPECIFIC MODIFICATIONS

- Wide Temperature Seals
- Washdown Rated Components
- Plug-in Electrical Connections
- Anti-Vibration
- Custom Circuit Manifolds
- Wide Voltage Range / Surge Protection
- Combined Electrical and Manual Operators

Valves That Don't Stick

TRANSPORTATION SOLUTIONS

MOBILE EQUIPMENT & REFUSE

Solutions for:

- Suspension / Air Bag
- Lift Axle (Pusher & Tag)
- Tailgate Latch
- Belly Dumps
- Hydraulic Valve Pilot

CONCRETE MIXERS & BATCH PLANTS

Solutions for:

- Charge Hopper
- Chute Lock
- Fan Clutch
- Water Tank Pressure
- Volumetric Mixer
- Dosing

BUSES & COACH

Solutions for:

- Brake / Door Interlock
- Door Open / Close
- Kneeling Systems

RAILROAD & SUBWAY

Solutions for:

- Compressor Controls
- Sanding Systems
- Air Horns
- Couplers
- Door Open / Close

THINK GLOBAL ACT LOCAL

Our global distribution network is keeping your machines running around the clock around the world
