

Airflex Recoil Tubing

Airflex Recoil Tubing

Airflex recoil hose tubing is highly abrasion resistant and kink resistant making it the perfect tube for areas of high movement and repeated flexing. Airflex recoil hose offers excellent memory properties and is ideal for use with pneumatic tools, instrumentation and robotics. Airflex recoil tubing can be supplied with integrated straight tails at each end of the coil – this allows for easy fitment of your chosen tube fitting onto a section of straight tube.

Material Properties:

Specific Gravity	1.14 +/- 0.02
Tensile Strength	41.0 MPa
Hydraulic Burst Pressure (minimum)	31 Bar / 450 Psi

Colours:

Black	
Natural	
Blue Tint	

Product Specifications:

			Tube Length -m		
Dimensions			5	10	15
6 mm	b – mm	a – mm	400	800	1200
	25	w – m	4	7.5	10
8 mm	b – mm	a – mm	490	970	1450
	50	w – m	4	7.5	10
10 mm	b – mm	a – mm	365	740	1110
	50	w – m	7	7.5	10
12 mm	b – mm	a – mm	300	600	900
	75	w – m	4	7.5	10
